Welcome

It is a pleasure to welcome you to our school for the upcoming year. We hope that your child will find this year an enjoyable and rewarding one.

For those children attending school for the first time, this is a great adventure away from home. It is here that your child develops lasting attitudes about school, teachers and classmates. It is also here that the student learns to accept other children and to be accepted by them.

While this adjustment appears to be a rather natural one for us adults, it is not necessarily true for children. It takes place best when the ingredients of love, patience, and understanding are present in the home and at school. This is one of the reasons close cooperation between the teacher and parent is so very important. It is our wish that your child may come happily and willingly to school and make a comfortable transition to our school.

We feel extremely proud to be able to serve the patrons of the Dickinson School District who have traditionally been very supportive in their role as concerned parents.

We welcome each of our parents to visit school at any time. Please call us if you have a concern regarding anything school related. We will be happy to help you at any time, and our door is always open to you.

GENERAL INFORMATION

Helpful Hints

The following suggestions are included to develop the continuity of a home/school education. While the school's responsibility is the education of the child, this can best be successfully accomplished with the assistance of parents, both in a supportive role and in an independent role.

- * Each child is unique. Accept the child's weaknesses and build upon the strengths.
- * Criticism breaks down the individual, while praise builds up the individual.
- * Take an active part in the education of your child by becoming familiar with the curriculum of the school.
- * Sleep is important. Nine to ten hours of sleep is recommended for children in elementary school.
- * Breakfast is an important meal for nutrition and health.
- * Have your child read orally to you often. You can build upon comprehension skills by asking questions from the reading.
- * Please label boots, mittens, caps, jackets, and other apparel and school supplies.
- * Teach your child his/her full name, address, and telephone number.
- * Ask to see some of the work done at school.

Enrollment

Dickinson Public Schools enrollment requirements:

- * Birth Certificate
- * Up-to-date immunization requirements for the State of North Dakota
- * To be enrolled in kindergarten, a child must be five years old before August first of the year of enrollment.

Immunization

The 1979 North Dakota Health Immunization Law requires that no child will be admitted to kindergarten, elementary school, junior high school, or senior high school unless he/she has a certificate of immunization on file at the school or submits one prior to admission. The law, which became effective July 1, 1979, requires that the certificate be signed by a physician or local public health department representative and be presented to the school officials by the parent or guardian of the child. The Certificate of Immunization states that the child has been vaccinated against diphtheria, pertussis, tetanus, measles, rubella, mumps, polio, hepatitis B and varicella (chicken pox) if applicable. ~~Beginning with the 2013-2014 school year,~~ Two doses of varicella vaccine are required for kindergarten through fifth grade. If a child has a reliable history of chickenpox disease, the child is exempt from the vaccine requirement. ~~For the 2013-2014 school year,~~ One dose of chickenpox vaccine is required of children attending sixth grade through ninth grade. If a child has a reliable history of chickenpox disease, the child is exempt from the vaccine requirement. ~~Also effective the 2008-2009 school year,~~ A student must receive meningococcal and tetanus, diphtheria, and pertussis (Tdap) vaccine before being admitted into any middle school, sixth or seventh grade. As per the North Dakota Dept. of Health, this requirement shall be implemented at the seventh grade level. ~~These new requirements are in addition to the previously required immunizations.~~ The law does allow exemptions for medical, philosophical, moral or religious beliefs. However, when there is a danger of an epidemic from any of the communicable diseases for which immunization is required, those children who are not adequately immunized, including children exempt, will be excluded from school until the danger of the epidemic is over.

Attendance

For students to be successful in school, it is essential they attend school every day and be on time. Research supports attendance as the most important predictor of student success.

Excessive absences may result in the school referring the student to social services. After 20 absences a student may be retained in his/her current grade. Principals have the right to utilize their discretion on a case by case situation.

Please consult the school district's calendar prior to planning a family trip or vacation during the school year. If a family trip or vacation is planned during the school year, please contact the school in advance.

Absences

North Dakota law contains compulsory attendance requirements. In order to comply with and enforce these requirements, the School Board established the following attendance policy:

Section I: Definitions

A. For purposes of compulsory attendance reporting under NDCC 15.1-20-02.1 (1-2):

- * *Excused absence* is an absence that the District will not use in determining if a compulsory attendance violation occurred. Any absence may be excused if it is supported by either a verbal or written excuse supplied by the student's parent, teacher, or school administrator.
- * *Unexcused absence* is any absence not supported by the verbal or written excuse required for an excused absence.

B. For the purposes of taking disciplinary sanctions under Section III this policy as authorized by NDCC 15.1-20-02.1(3):

- * *Approved absence* is an absence that the District believes is necessary and/or unavoidable and has received administrative approval. Necessary and/or unavoidable absences may be caused by illness, injury, family emergency, religious observance or instruction, suspension, participation in a school-related activity, court appearances when subpoenaed, or other reasons deemed necessary and/or unavoidable by the building principal or Superintendent. Students granted approved absences shall not be subject to the consequences contained in Section III of this policy. The Superintendent or designee shall develop criteria for requesting and granting an approved absence and shall establish make-up work requirements.

- * *Unapproved absence* is defined as an absence that does not meet the above criteria for approved absences. If a student is absent for an unapproved reason, the parent/guardian shall still be responsible for calling the principal's office to explain the absence, and the student will be subject to the consequences contained in Section III of this policy.

Section II: Documentation Requirements

School administration may require applicable documentation to verify an excused or approved absence, including, but not limited to:

1. Medical documentation from an appropriate licensed healthcare provider;
2. A copy of a court summons or subpoena;
3. An obituary for funeral leave;
4. Verification of planned or executed family travel (e.g., a boarding pass);
5. A request from an official at the student's place of worship;
6. A request for an absence due to a curricular or extracurricular event submitted by the student's teacher, coach, or extracurricular advisor.

Section III: Accumulated Unapproved Absence

The Board believes that unapproved absences are a form of misconduct and authorizes the Superintendent to establish grade-appropriate the disciplinary consequences. Students will be afforded appropriate due process rights based on the severity of disciplinary penalty that the District is considering imposing. Students shall be required to complete make-up work in accordance with administrative regulations or will receive no credit for incomplete work.

Compulsory Attendance Violations

North Dakota law defines what constitutes a compulsory attendance violation. Suspected violations of the compulsory attendance law shall be reported to school administration and investigated in accordance with law. When a compulsory attendance violation is substantiated, the District shall comply with law enforcement reporting requirements under law.

Tardiness

Students are expected to be in class on time. If a student has been tardy 10 days, a letter will be mailed home informing the parent/guardian of the tardiness concern. If a student has been tardy 20 days, the school will contact social services to develop a plan to ensure prompt attendance. A letter may be mailed home informing the parent/guardian that social services has been notified.

Retention/Promotion

A student's achievement of the skills for the grade to which he/she is assigned and his/her readiness for work at the next grade level shall be considered before he/she is assigned to the higher grade.

In evaluating student achievement, each teacher shall make use of all available information, including results of teacher-made tests and other measures of skill and content mastery, standardized test results, teacher observation of student performance, and attendance records.

Conferences

Parent/Teacher Conferences will be scheduled by each building. Conferences may be scheduled at any other times during the school year at the request of parents or teachers. Conferences are an important means of communication between home and school. See page 4 for individual school conference dates and times.

Parent Advisory Council (PAC)

The Parent Advisory Council is a group, open to all parents with students in attendance, who meet regularly with the principal for several reasons: (1) to become updated and informed as to what is happening in the school program; (2) to provide feedback on parent concerns and questions; and (3) to keep the rest of the school population updated and informed.

This concept of a parent group adds a new dimension to the parent's role which includes: (1) the principal and staff have an obligation to keep parents notified; (2) parent opinion is important and will be considered; and (3) parents take on responsibility for disseminating information to the parent population.

Parent Volunteers

We are happy to have parents serve as volunteers in the school. There are many tasks that could be handled by a parent volunteer that would be rewarding to both volunteer and students. ~~Lists of volunteer areas are available at the principal's office.~~ Criminal and Social Service background checks are required of all regularly scheduled volunteers.

Committees For Parental Involvement

The Dickinson Public Schools encourage parental involvement in educational decision making. Parents are invited to call their child's school or the Central Administration Office (456-0002) if they are interested in being part of any of the following committees:

- * Building Parent Advisory Committee (PAC)
- * District Technology Committee
- * District-wide Parent Advisory Committee
- * District Calendar Committee
- * District Wellness Committee
- * School Improvement Leadership Team
- * West Dakota Parent and Family Resource Center Advisory Board

Homework

The school endorses purposeful homework. Homework requirements should be meaningful, and enhance and/or supplement classroom learning. Homework may be assigned in elementary grades and must be reasonable for each grade level. To be reasonable, such work should cover known processes or skills without involving special instructions.

School Visitations

Adults are welcome to visit the school or a specific classroom. The visit must be scheduled with the principal. Please do not bring preschool children with you when visiting your child's classroom. Visitors are required to check in at the office when coming into the building. Visitors needing additional information regarding visitation should review or request a copy of school board policy KAAA-Visitors in the School.

Classroom Visitation by Non-District Students

These visitations are considered to be distracting and generally are discouraged. If they are approved by the building principal, this visitation should be of short duration, not to exceed one-half day.

Animals

Animals shall not be brought to school without prior approval from the principal and teacher. All animals must be vaccinated prior to bringing them to school. The parents must bring the animal to school and take it home immediately after showing his/her class. Proof of rabies vaccination will be required for dogs and cats.

Transfer of Students

Please notify the teacher and the office if your children are transferring to another school out of the school district. If you wish to transfer within the district a transfer request form must be completed and submitted to the student's current school. Appropriate records, supplies, and materials will be sent to schools when a transfer occurs within the Dickinson Public School system. Transfers within the district must be approved by the Central Administration Staff and the building principal.

Positive Behavior Support

School is important to a student's success in life; therefore, all people in a school should be treated with dignity and respect. The district has adopted a positive behavior support model to promote desired student behavior and believes the adults in a school bear the ultimate responsibility for making a school safe, civil, and productive. School personnel have high expectations for students and students should receive positive feedback on their behavioral efforts. Our schools are structured for student success and the classrooms are structured to promote positive behaviors. Firm and clear limits for students are established and directly taught to students. Student misbehavior is corrected calmly and consistently. Addressing chronic student misbehavior is a collaborative responsibility involving the entire staff and parents. Parents should be advised promptly when students begin to get into difficulty which might lead to suspension. Teachers design their own classroom management plans which conform to the positive behavior support model.

The Board recognizes that reasonable physical force may occasionally be necessary to guard the safety and well being of student or employees or to deliver a student to an administrator's office; however, the use of corporal punishment, defined as the willful infliction of physical pain on a students, is not allowed in the Dickinson Public Schools. Corporal punishment does not include action taken by an employee for self-defense, protection of persons or property, obtaining possession of a weapon or other dangerous object, to quell a verbal disturbance or for the preservation of order.

Suspension and Expulsion

Definitions

For the purposes of this policy:

- *School property* is defined as all land within the perimeter of the school site and all school buildings, structures, facilities, and school vehicles, whether owned or leased by the District, and the site of any school-sponsored activity.
- *Suspension* includes out-of-school exclusion from school classes, buildings, grounds, and activities.

Suspension/Expulsion Authority

The Board hereby delegates to the Superintendent and each principal the authority to deal with disciplinary problems in his/her school, including suspension and recommendation for expulsion of a student. Suspension shall not be imposed beyond the maximum duration permitted by law.

The Board designates the Superintendent to serve as the hearing officer for expulsion hearings unless not qualified to serve as defined in board regulations. In such cases, the Board shall appoint an alternative hearing officer. The hearing officer may expel a student for conduct that violates this policy after providing notice and a hearing as set forth in board regulations. When the hearing officer is someone other than the Dickinson Public School Board, the student may seek a review of the hearing officer's expulsion decision by the Board based on the record of the hearing.

Expulsion shall not be imposed beyond the maximum duration permitted by law.

Conduct Subject to Suspension/Expulsion

Conduct, including but not limited to the following, exhibited while on school grounds, during a school-sponsored activity, or during a school-related activity is subject to suspension or expulsion:

1. 1. Causing or attempting to cause damage to school property or stealing or attempting to steal school property.
2. Causing or attempting to cause damage to private property or stealing or attempting to steal private property;
3. Causing or attempting to cause physical injury to another person except in self-defense;
4. Possessing or transmitting any firearms, knives, explosives, or other dangerous objects or weapons;
5. Possessing, using, transmitting, or being under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, alcoholic beverage, or intoxicant of any kind;
6. Disobedience or defiance of proper authority;
7. Behavior that is detrimental to the welfare, safety, or morals of other students;
8. Truancy;
9. Offensive and vulgar language, whether or not it is obscene, defamatory, or inciteful to violence, where it is disruptive of the educational process;
10. Threats of violence, bomb threats, or threats of injury to individuals or property;
11. Any student behavior that is detrimental or disruptive to the educational process, as determined by the principal.

Copies of these rules shall be posted in a prominent place in each school and shall be published in student handbooks.

Suspension or Expulsion of Students with Disabilities

Suspension or expulsion of students with disabilities must comply with the provisions of the Individuals with Disabilities Education Act.

The District is not required to refer a regular education student who has been suspended for violation of school rules and/or district policy for special education assessment and evaluation to determine if such a student might have a disability. A suspended regular education student is not entitled to reinstatement to classroom and campus privileges pending any assessment and evaluation that is to be made during the term of the student's suspension.

Medication

By law a student who has been diagnosed with asthma or anaphylaxis may possess and self-administer emergency medication for the treatment of such conditions provided the student's parent files with the school a document that is signed by the student's physician and which:

- * Indicates that the student has been instructed in the self-administration of emergency medication for the treatment of asthma or anaphylaxis;
- * Lists the name, dosage, and frequency of all medication prescribed to the student for use in the treatment of the student's asthma or anaphylaxis; and
- * Includes guidelines for the treatment of the student in the case of an asthmatic episode or anaphylaxis.

Neither a school district nor any employee of the district is liable for civil damages incurred by a student who administers emergency medication to himself or herself, or an individual because a student was permitted to possess emergency medication.

Parents shall make every effort to have medication administration times set for time periods other than school hours. When this is not possible, the Dickinson Public School District staff may assist in the administration of medication during school hours. The Dickinson Public School District retains the right to refuse to administer medications or provide other medical treatments. In no case should a staff member recommend or prescribe, nor require medication nor require medication as a condition of attending school.

No prescriptive or non-prescriptive medicine will be allowed in school unless the stated procedures are followed:

- * No prescription or nonprescription medication will be administered by school personnel unless authorized by parent/guardian or prescribed by a licensed prescriber, and an authorization form is signed by a parent or legal guardian and if required, a health care provider. (ACBD-E1, E2, E3, and E4)
- * Prescription medication must be in a container with a label prepared by a pharmacist. Nonprescription medication must be in the **original container** labeled with the student's name and dosage. Prescription and nonprescription medications must be hand delivered to the school personnel by the parent/guardian.

- * Medications are to be properly labeled with student's name, name of medication, dosage amount, frequency of administering, name and telephone number of pharmacy, prescription number, and doctor's name.
- * School personnel will keep a separate record of administering medication, noting date, time and initials of person administering the medication.
- * The parent is to make the school personnel aware of any side effects and who to notify in case of emergency.
- * Any change in type or amount of medication must be approved by a parent (a new approval form must be signed and completed.)
- A form to authorize the administration of medication must be signed by parent or guardian and kept in the school office and updated annually.

Physical Education

Proper athletic footwear is required. For safety purposes a secure, non-slip, non-marking shoe is preferred. One pair of shoes is sufficient as long as they are clean.

If girls wear a dress or skirt, a pair of shorts should be worn underneath.

If there is a good reason for a student not to participate in physical education class, a note signed by the parent or guardian should be sent to the physical education specialist. Extended excuses (5 consecutive days) must be signed by a doctor.

Rights of Custodial/Non-Custodial Parents

Without a court order showing sole guardianship, the school will treat both the custodial and non-custodial parent in the same manner, with reference to viewing and receiving educational records or information, the right to know in which school the child is in attendance, and the right to talk to his/her child during the school day provided that privilege is accorded to the custodial parent.

With a court order, grandparent(s) will be entitled to the privileges mentioned above provided either of the natural parents, regardless of custodial rights, consents to the release of educational records, information and visiting privileges to the grandparent(s).

First Aid/Accidents

In the event an accident occurs within the school, or a student or other individual becomes suddenly ill, the responsibility of the school personnel is to provide emergency care, notify parent or guardian and, in serious instances, summon necessary medical care.

In the event a child becomes acutely ill or is seriously injured during school hours, the school will inform the parents/guardian, who will make the decision whether to pick up the child at the school or meet the child at the hospital. If the school is unable to reach the parents or if they choose to meet the child at the hospital, the child may be transported by school personnel or by ambulance at the discretion of the principal or his/her designee. If the school is unable to reach the parents, an attempt will be made to contact the child's personal physician as designated on the student's record. The district's policy and regulations on concussion management shall supersede any district emergency response policies/regulations when the concussion management policy/regulations are applicable.

Allergy Aware School

There are children attending Dickinson Public Schools who have life-threatening allergies to peanuts and tree nuts. The teachers and staff strive to provide a safe environment for all students. Therefore, your cooperation is requested to avoid exposure of these allergens to students. Parents are requested to avoid sending any snacks or items containing peanuts, peanut oils and/or tree nuts with your child to school. Parents should read labels before sending foods with their child to school. Lock Downs

During a lock down no person, with the exception of an official, will be allowed to leave or enter a Dickinson Public School District Building. Lock downs are initiated to protect students and staff by limiting individuals with unknown intentions from entering the building. In some instances an outside threat may not be identifiable and allowing parents or the public into the building would place our students and staff at a risk. During a lock down administrative staff are engaged in protecting the building from possible inside or outside threats. Please do not attempt to contact the individual school or pick up your child during a lock down. We understand this may cause an inconvenience, but our hope is, you understand we have your child and hundreds more safety at interest.

Student Progress

Report Cards

Dickinson Public Schools is transitioning to a standards based report card in grades K-5. The language arts portion of the report card in grades K-5 and the mathematics portion for grades K-2 will be standards based. It is our intention to add additional content areas in the future.

Standards based report cards provide information to parents and students regarding the student's ability on specific learning targets or standards. The feedback on the report card indicates what the student has learned or is able to do. This provides a clearer picture on both what the expectations are for student learning and also how individual students are progressing during the year. Report cards are issued every nine-week period.

Parents and students in grades K through 6 can access student grades online through the Power School electronic student information system. For general information about using web access, visit the district wide website at www.dickinson.k12.nd.us and click on the Power School Parent Access link.

Grading

The following percentages will be used to determine letter grades in some subject areas, in grades three through six.

94 - 100	A
86 - 93	B
78 - 85	C
70 - 77	D
Below 70	Unsatisfactory

Grades will be recorded for each student's permanent school files and will be used for reporting to parents. School grades and other related personal information concerning a student are considered confidential. Only those who have a legal right to know such confidential information will have access to the school records.

Assessments

- North Dakota State Assessment (Gr. 3-6)
- NWEA (Northwest Evaluation Association - Gr. K -6)

Forward

The purpose of this handbook is to provide coaches/advisors, students, parents, and the public with the necessary information pertaining to rules, regulations, policies, and guidelines relating to school activities in the Dickinson Public School System. Many important and common questions that arise from time to time are addressed. Dickinson Public Schools is very proud of the variety and number of activities available to our students and DPS thanks the continued public support of our student activity programs.

Activity Director's Message

Dickinson Public Schools supports all of its activity programs with great enthusiasm as a positive and valuable part of the total educational experience. Dickinson Public Schools is extremely proud of the multitude and variety of activity programs offered to all students. All student activity programs shall be organized and managed along the following guidelines:

I. Participants shall be treated as regular students. No special consideration is given for grades, attendance, assignments, etc. Students involved in school activities should represent the best that the district has to offer in and out of the classroom.

II. Full allegiance will be given to all rules and regulations of the North Dakota High School Activities Association as well as other policies set forth by Dickinson Public Schools.

III. All activity programs will be conducted for the benefit of the participants, with maximum concern for their safety, health, and well-being.

IV. Coaches/advisors as regular faculty members as well as those who are non-faculty are expected to exhaust all legitimate channels for promoting the highest level of excellence in all programs. Keeping in mind that our students participate in a wide variety of activities, coaches/advisors are expected to promote and support all activity programs and will be evaluated on the basis of their loyalty and contribution to the total educational program.

V. All participants involved in school activities must be mindful that participation in school activities is a privilege and therefore carries high levels of expectation. All participants must adhere to all rules and regulations of the NDHSAA, Dickinson Public Schools, and each individual program.

Eligibility of Activity Participants

The North Dakota High Schools Activities Association (NDHSAA) serves as the governing body for many of the activities offered by Dickinson Public Schools. In accordance with the NDHSAA and many other state-sponsored student organizations, Dickinson Public Schools has adopted eligibility requirements for all its activity participants. Participants and parents/guardians should take the time to become familiar with all eligibility requirements. The NDHSAA Constitution and By-Laws Manual contains thorough detailed information in regards to the activities they sponsor. These by-laws can be found at www.ndhsaa.com.

The following are selected policies of the NDHSAA and those policies adopted by Dickinson Public Schools pertaining to eligibility requirements of all Dickinson Public Schools student activity participants. Individual activity programs may have additional training rules/regulations that apply to participants. Program participants will be made aware of any specific program rules/regulations that exist. The Activities Director and building principal will approve specific individual program rules/regulations in addition to those specified below:

D) PHYSICALS – All athletes, cheerleaders, and dance team members are required to have an annual physical signed by a physician and the participant’s parents/guardians certifying that the participant has passed an adequate physical examination.

1. The above named participants are NOT ALLOWED TO PRACTICE OR PARTICIPATE IN ANY CONTEST, GAME, PERFORMANCE, OR OTHER INTERSCHOLASTIC EVENT until a current physical is on file with the Activities Office at Dickinson High School.
2. Physicals must be completed annually on or after April 15 to be valid for the following school year. Physicals completed before April 15 are not valid for participation the following school year.

2) PARTICIPATION FEES

- a. **Athletics** - All athletes, cheerleaders, and dance team members are required to pay an athletic participation fee as determined by Dickinson Public Schools.
 1. Athletic fees are based upon the grade level of the student, not the level at which they participate. The fee for sixth graders will be \$30.00 per activity with a max of \$75.00.
- b. **Other Activities** – All non-athletic activity participants are required to pay a participation fee as determined by Dickinson Public Schools. This fee is in addition to any state and national dues for each activity group
- c. **All Activities**
 1. Participation fees are due and payable on the first day of the activity. Participants are NOT ALLOWED TO PRACTICE OR PARTICIPATE IN ANY CONTEST, GAME, PERFORMANCE, OR OTHER INTERSCHOLASTIC EVENT until the required fee is paid at the Activities Office at Dickinson High School.
 1. Fees should be paid at the Activities Office at Dickinson High School or may be given directly to the coach/advisor of the activity who will forward the payment to the Activities Office.
 2. Students who are not able to pay when payment is due or feel they cannot afford to pay the fee should make arrangements with the Activities Director.
 3. Each fee payer will receive a receipt for monies collected if requested.
 4. Student managers, statisticians, and scorekeepers are not required to pay activity fees.
 5. Students who voluntarily drop any activity will forfeit the fee.
 6. Students suspended from activities for disciplinary reasons or scholastic ineligibility will not receive refunds.
 7. Full or partial refunds may be granted due to illness, injury, or being cut from a team/group. No refunds will be granted if more than half of the activity is completed.
 8. Paying a participation fee DOES NOT guarantee any amount of playing time or other participation

- 3) **CODE OF CONDUCT/MEDICAL RELEASE FORM** - All activity participants along with parents/guardians are required to read and sign a Code of Conduct/Medical Care Release Form.
- a. This form must be completed every year.
 - b. Activity participants are NOT ALLOWED TO PRACTICE OR PARTICIPATE IN ANY CONTEST, GAME, PERFORMANCE, OR OTHER INTERSCHOLASTIC EVENT until a current Code of Conduct/Medical Care Release Form is on file with the Activities Office at Dickinson High School.
 - c. In order to provide for the health and safety of the individual participant and other extracurricular participants participating in a field trip, out-of-town contest or convention, or away game, the District may conduct a random search of all personal property of extracurricular participants before the students depart for the field trip, contest, convention, or game. To participate in any school sponsored extracurricular field trip, out-of-town contest or convention, or away game, the student and the parents/guardians of the student must sign a consent form by which the student agrees that as a condition of participation in the extracurricular activity, he/she will consent to reasonable search of personal property or clothing including student's backpack, book bag, suitcase, and/or purse.
 - d. Coaches/Advisors will carry a copy of this form with them at all times in the event of a medical emergency.
- 4) **SCHOLASTIC ELIGIBILITY** - In accordance with the North Dakota High School Activities Association, Dickinson Public Schools has adopted the following academic requirements for eligibility in school activities.
- a. **Berg and Hagen Students**: To participate, students may not be failing in any classes. Grades are checked on a weekly basis by the high school activities office. If a student has a failing grade in more than one class, he or she is declared academically ineligible for one week. The student will remain academically ineligible until the required number of classes is being passed. Also, any Hagen Junior High student participating on a Dickinson High School team/activity must be passing ALL classes to be academically eligible for that particular activity.
 - b. **Dickinson High School Students**: To participate, students must be passing at least three classes. Grades are checked at the midterm of each quarter and at the end of each quarter (eight times per year). If a student is not passing at least three classes, he or she is declared academically ineligible for one week. The student's grades will then be checked weekly, and the student will remain academically ineligible until the required number of classes is being passed. Additionally beginning with the ninth grade, any student not earning at least two credits at the end of a semester is academically ineligible for the first four weeks of the following semester. In this case, grades for the following semester will be checked after four weeks and to be eligible that student must be passing at least three classes. If not, the student will remain academically ineligible for one week and the student's grades and eligibility status will be checked weekly.

5) SCHOOL ATTENDANCE - Students must be in attendance at school all day on the day of a competition, event, or performance unless prior approval is given by the Activities Director or building principal.

6) CITIZENSHIP/SPORTSMANSHIP: School activity participants are expected to exhibit good citizenship while at school and in the community. The conduct and behavior of participants is closely observed in many areas of school life and is a direct reflection of themselves, their parents, the school, the community, and the coach/advisor. Participants will be courteous and show respect for people and property. Poor citizenship and poor sportsmanship will be determined by coaches/advisors and school administrators and may result in suspension from school activities.

7) SPECIFIC TEAM/ACTIVITY RULES: Individual programs may have additional training rules/regulations that apply to students. Program participants will be made aware of any specific program rules/regulations that exist. The Activities Director will approve specific program rules. Ability alone does not guarantee a position in any activity. Dedication, cooperation, practice, teamwork, fundamentals, and respect for team/activity rules are required.

8) PRACTICE & GAME/EVENT ATTENDANCE: Activity participants are expected to attend all practices and games/events while in season. In certain situations, participants will need to be absent for justifiable reasons and are considered "excused absences." However, "excused absences" may result in suspension from school activities. Excused and unexcused absences will be determined by coaches/advisors and school administrators and may vary from activity to activity depending on specific circumstances.

9) SUSPENSIONS AND EXPULSIONS: A participant who receives an out-of-school suspension or expulsion for any part of the school day shall not be allowed to participate in any competition, event, or performance for the entire day. Furthermore, a participant shall not be allowed to practice or attend school-sponsored events until this type of suspension/expulsion is completed. A participant who receives an in-school-suspension may be ineligible for participation in school activities. Participation will be decided by the administration and coach/sponsor of the activity affected based upon the severity and circumstances leading to the in-school-suspension.

10) INJURIES: Dickinson Public Schools will ensure that competent coaches/advisors, safe facilities, and safe equipment are utilized. Nevertheless, injuries may still occur. If an injury occurs, notify the coach/advisor. **MEDICAL COSTS FOR INJURIES ARE NOT THE RESPONSIBILITY OF DICKINSON PUBLIC SCHOOLS.** Dickinson Public Schools does not carry insurance to cover costs involved in an injury. Injury costs are the responsibility of participants and/or their parents/guardians.

11) SOCIAL MEDIA: Student-athletes are representatives of Dickinson Public Schools and community. The athletic department requires student-athletes to exercise good judgment in their use of social media websites, and to conduct these activities in a responsible and respectful manner.

- It is impermissible for student-athletes to post information, photos, inappropriate behavior or items that could be interpreted as demeaning or inflammatory.
- It is not permissible to comment on injuries, officiating, or team matters that could reasonably be expected to be confidential to team members.
- Student-athletes are required to follow all respective social media website rules.

12) BEST PRACTICES AND REMINDERS

- Think twice before posting. If you wouldn't want your coach, parents, or future employer to see your post, don't post it.
- Be respectful and positive.
- Remember, many different audiences view you're posts including fans, alumni, kids, local authorities, parents, faculty, etc.
- The internet is permanent. Even if you delete something, it's still out there somewhere. Do not post with an emotional state of mind. Coaches and administrators monitor social media websites. Potential employers use these social media websites to screen candidates. Use the privacy/security settings made available on these sites.

13) SPECIAL NOTES: The Code of Conduct is in effect for the entire school year for all students whether or not they are currently in an activity. The Code of Conduct extends beyond the school year for those participants who are in an activity that either begins before school starts in the fall or ends after school ends in the spring.

Each year, all activity participants are required to sign the Code of Conduct prior to participation. However, all students and parents/guardians are reminded that once the school year begins, all students are subject to the Code of Conduct whether they have signed a Code of Conduct or not for the current school year as these policies are a part of the student handbook.

Co-op students from other schools participating in activities sponsored by Dickinson Public Schools are required to follow all the same policies and procedures as set by this Code of Conduct and DPS student handbooks.

C. Dickinson Public Schools – Alcohol, Tobacco, and Controlled Substance Use Policy & Code of Conduct

The purpose of this policy is to define the position and disciplinary procedures of Dickinson Public Schools and the North Dakota High School Activities Association regarding the use or possession of tobacco, alcohol, narcotics, drug paraphernalia, or other controlled substances by participants in activity groups sponsored by Dickinson Public Schools. All student activities sponsored by Dickinson Public Schools are affected by this policy. They shall include, but not be limited to all athletic teams and athletic-related teams, performance groups, interscholastic groups, school sponsored

organizations, state sponsored activity groups, and other school clubs/activities offered by Dickinson Public Schools.

Use or possession of tobacco, alcohol, narcotics, drug paraphernalia, or other controlled substances defined by North Dakota Law is prohibited. Any activity group participant who uses or possesses any of these substances will be suspended from all competitions or public appearances from the notification date. Participants in activities which are an extension of the classroom and are grade related such as concert band and concert choir will be allowed to participate in public performances but will not be allowed to participate in any interscholastic competition event.

Penalties will be prescribed as shown below:

1. First offense of the school year - 6 weeks
2. Second and subsequent offenses in the same school year – additional 18 weeks for each offense

Notes:

1. In addition to the suspensions listed above, Dickinson Public Schools also requires that participants must complete a substance abuse evaluation from a licensed addiction facility at the participant's expense beginning with the second offense and any subsequent offenses. This policy is in effect starting in the seventh grade and cumulative through 12th grade. This evaluation must be completed before ever participating in activities sponsored by Dickinson Public Schools again.
2. Keep in mind that students get a "fresh start" every year the school year begins when dealing with suspensions only, not evaluations. The first offense in a single school year is six weeks and subsequent offenses in the same school year are 18 weeks. These suspensions start over every year. However, suspensions are cumulative from year to year when dealing with evaluation requirements. For example: A student is suspended for six weeks during his or her eighth grade year for tobacco. This same student is then again suspended during his or her junior year for alcohol. Because it is a different school year, the suspension would be six weeks. However, because this is the second offense by this same student since seventh grade, an evaluation would be required and would have to be completed before ever participating in activities sponsored by Dickinson Public Schools again.
3. Dickinson Public Schools does provide an appeal process to ensure due process when students are suspended from school activities for alcohol, tobacco, and drug violations. Details of the appeal process and the entire Dickinson Public Schools Policy on Controlled Substance Use and Code of Conduct are available in Dickinson Public Schools student handbooks.

A student will be determined to have used one of the aforementioned substances when a witness has observed him/her ingesting the substance or under the influence of the substance and signs a statement to the effect. After the statement has been signed, school officials will make a determination of guilt or innocence.

A student will be determined to be in possession when he/she is found to have the substance on his/her person, such as in a pocket or in hand, or within an area which the participant controls, i.e. his/her vehicle, home, or person. Full or partial ownership shall also be evidence of possession. In order to show that a student is in possession of a prohibited substance, it is generally necessary to show that the student was aware of the presence and character of the particular substance and was intentionally and consciously in possession of it.

School administrators shall immediately investigate any alleged violation of the alcohol, tobacco, and controlled substance policy that is made known to the administration. If the administration finds probable cause to believe that this policy has been violated, the parents/guardians will be immediately notified of the violation and penalty.

D. Due Process Appeal Policy

To assure due process, no Dickinson Public Schools activity participant will be suspended from any activity without first being advised of the nature of the violation, the evidence against him/her, and the right to request an appeal hearing within three school days of the administration's decision. The period of suspension shall begin from the date and time notification is given to the student and/or parent/guardian by the school administration. If a student and/or parent/guardian wishes to appeal the decision, an appeal hearing must be requested within three school days of being notified of the suspension by the administration. That request should be made to the building principal and/or Activities Director. Once the request is made, the appeal hearing will take place as soon as possible, preferably within three days of the student and/or parent request to have such hearing.

The appeal hearing will be heard by the Dickinson Public Schools Superintendent. This appeal will be considered the final appeal as the superintendent will act as the representative of the Dickinson Public Schools Board of Education. During the appeal hearing, the building principal or his designee shall act as the moderator of the hearing. The following parties may be involved: the participant being charged, parents/guardians of the participant, coach or director of the activity, witnesses to the violation, the investigating administration, and legal counsel for the participant if he/she desires. The participant being charged will be allowed to testify, to have witnesses, and to question all witnesses. Once the appeal hearing is over, the Superintendent will render a decision. The Superintendent may delay his or her final decision if he or she feels it necessary to investigate the incident further.

Notes:

1. During the time between notification and the hearing, the suspension may be deferred for good cause shown. However, if the school administration believes that clear and substantial evidence shows that the student is in violation of this policy, the student will be suspended immediately. The reason is that NDHSAA regulations state that if the suspension is not immediately imposed and the student is found to be guilty at a later date, any interscholastic contests or activities participated in by that student have to be forfeited.
2. If a violation of this policy occurs in school, on school premises, or at a school related activity, the student will be disciplined under the terms of this policy as well as the terms of the major disciplinary policy of each school district building.

E. Activity/Athletic Scheduling Conflicts

1. Dickinson High School, Hagen Jr. High & Berg Elementary offer a multitude of activities for students. Because of the number of activities and limited days to hold events, scheduling conflicts are inevitable. Students/parents are to notify coaches/advisors immediately when they become aware that a conflict exists. The activities director is responsible for scheduling and will make every attempt to avoid scheduling conflicts. When conflicts exist, curricular events such as musical performances and singular qualifying events will have precedence over all sub-varsity events and may have preference over varsity events. When a conflict arises between two qualifying events, the activities director will meet with the advisor/coach to decide which event the student should attend. Parental input will be considered. If the conflict remains unresolved, the building principal will conduct a meeting with the parties involved and render a final decision.

F. Wednesday Night

Sixth graders will not practice or compete on Wednesdays.

G. Sundays/Holidays

The NDHSAA allows contests to be scheduled on Sundays. However, it is the policy of Dickinson Public Schools that athletic contests will not be scheduled on Sundays unless there is no other option. Such athletic contests must be approved by the Activities Director.

Practices are allowed on Sundays for VARSAITY level athletes and other activity groups provided that these practices do not conflict with church activities. Sunday practices for SUBVARSAITY athletes are not permitted at any time. Practices are to never be held before 12:00 noon on Sundays. Additionally, coaches/advisors should provide leniency for those students who may have family obligations that conflict with Sunday practices. Furthermore, practices on holidays are to be approved by the Activities Director and/or building principal.

**School property* or the term *on-campus* refers to all property owned or leased by the District, school buses and other vehicles, or any school district sponsored or school-sanctioned activity.

**School-sponsored* activity is an activity that the District has approved through policy or other board action for inclusion in the district’s extra-curricular program and is controlled and funded primarily by the District.

**School-sanctioned activity* is defined as an activity that:

- a. Is not part of the district's curricular or extracurricular program; and
- b. Is established by a sponsor to serve in the absence of a district program; and
- c. Receives district support in multiple ways (i.e., not school facility use alone); and
- d. Sponsors of the activity have agreed to comply with this policy; and
- e. The District has officially recognized through board action as a school-sanctioned activity.

**School staff* shall include all employees of the Dickinson Public School District, school volunteers, and sponsors of school-sanctioned activities.

**True threat* is a statement that, in light of the circumstances, a reasonable person would perceive as a serious expression of intent to inflict harm.

Prohibitions

While at a public school, on school district premises, in a district-owned or leased school bus or school vehicle, or at any public school or school district sanctioned or sponsored activity or event, a student, staff member or school volunteer may not:

1. Engage in bullying;
2. Engage in reprisal or retaliation against:
 - a. A victim of bullying;
 - b. An individual who witnesses an alleged act of bullying;
 - c. An individual who reports an alleged act of bullying; or
 - d. An individual who provides information/participates in an investigation about an alleged act of bullying.
3. Knowingly file a false bullying report with the District.

Off-campus bullying that is received on school property is also prohibited. The District has limited disciplinary authority to respond to such forms of bullying.

Reporting Procedures for Alleged Policy Violations

1. Reporting requirements for school staff: Any school staff member with knowledge or suspicion of a violation of this policy or who has received an oral or written report of a violation of this policy from a student, community member, or anonymously shall contact the building principal to inform him/her as soon as possible. If the alleged violation implicates the building principal, the school staff member shall report it to the Superintendent. If the alleged violation implicates the Superintendent, the school staff member shall file it with the Board President. Should school administration determine that a school staff member knew of or suspected a violation of this policy and failed to report it in accordance with the procedure above, the staff member may be subject to disciplinary consequences or, for sponsors of school-sanctioned activities, other corrective measures.

2. Reporting options for students and community members: Students and community members (including parents) may report known or suspected violations of this policy using any of the following methods:
 - a. Completing a written complaint form: A complainant will have the option of including his/her name on this form or filing it anonymously. The District will place the form in a variety of locations throughout the school and should inform students and staff of these locations. The form may be returned to any school staff member or filed in a school building's main office.
 - b. Complete and submit an online complaint form. A complainant will have the option of including his/her name on the form or submitting it anonymously.
 - c. File an oral report with any school staff member.

A complaint filed anonymously may limit the district's ability to investigate and respond to the alleged violations.

Reporting to Law Enforcement & Others Forms of Redress

Anytime a school staff member has reasonable suspicion that a bullying incident constituted a crime, s/he shall report it to law enforcement. Also, nothing in this policy shall prevent a victim/his/her family from seeking redress under state and federal law.

Documentation & Retention

The District shall develop a form to report alleged violations of this policy. The form should be completed by school staff when they:

1. Initiate a report of an alleged violation of this policy; or
2. Receive an oral report of an alleged violation of this policy.

The form should be completed by an administrator when s/he:

1. Initiates a report of an alleged violation of this policy; or
2. Receives an oral report of an alleged violation of this policy.

All written reports of an alleged violation of this policy received by the District shall be forwarded to the appropriate school administrator for investigation and retention.

Report forms and all other documentation related to an investigation of an alleged violation of this policy shall be retained by the District for six years after a student turns 18 or graduates from high school, whichever is later. If a student does not graduate from the District, such reports and investigation material shall be retained for six years after the student turns 18.

Investigation Procedures

School administrators (i.e., a principal, an assistant superintendent, or the Superintendent) are required to investigate violations of this policy (as prescribed under "Prohibitions"), when in receipt of actual notice of an alleged violation. Actual notice of an alleged violation occurs when alleged bullying, reprisal, retaliation, or false reporting is reported using the applicable method(s) prescribed in the reporting section of this policy.

Upon receipt of a report of an alleged policy violation, the designated administrator shall first determine if the alleged policy violation is based on a protected **class status**—whether actual or perceived. Reports involving a protected **class**

investigated in accordance with the district's harassment/discrimination policy, including the timelines contained therein. In all other cases, administration shall determine the level of investigation necessary based on the nature of the alleged violation of this policy after considering factors such as, but not limited to: the identity of the reporter and his/her relationship to the victim/alleged perpetrator; the ages of the parties involved; the detail, content, and context of the report; whether this report is the first of its type filed against the alleged perpetrator. Based on the level of investigation the administrator deems necessary, investigations may include any or all of the following steps or any other investigatory steps that the administrator deems necessary:

1. Identification and collection of necessary and obtainable physical evidence
(NOTE: In some cases physical evidence may be unobtainable, e.g., a private social networking profile);
2. Interviews with the complainant, the victim, and/or the alleged perpetrator. At no time during an investigation under this policy shall the victim/complainant be required to meet with the alleged perpetrator;
3. Interviews with any identified witnesses;
4. A review of any mitigating or extenuating circumstances;
5. Final analysis and issuance of findings in writing to the victim and bully and, if applicable, implementation of victim protection measures and disciplinary measures under this or other applicable policies.

Investigations shall be completed within 60 days unless the administrator documents good cause for extending this deadline. Such documentation should be sent to victim and alleged perpetrator during the investigation.

Disciplinary & Corrective Measures

Students that the District has found to have violated this policy shall be subject to disciplinary consequences and/or corrective measures. When determining the appropriate response to violations of this policy, administration shall take into account the totality of circumstances surrounding the violation. Measures that may be imposed include, but are not limited to:

1. Require the student to attend detention;
2. Impose in or out-of-school suspension or recommend expulsion. Due process procedures contained in the district's suspension and expulsion policy shall be followed;
3. Recommend alternative placement. This recommendation shall be submitted to the Superintendent for approval or denial. The Superintendent may approve such recommendations only if the student has been given notice of the charges against him/her and an opportunity to respond;
4. Create a behavioral adjustment plan;
5. Refer the student to a school counselor;
6. Hold a conference with the student's parent/guardian and classroom teacher(s), and other applicable school staff;
7. Modify the perpetrator's schedule and take other appropriate measures (e.g., moving locker) to minimize contact with the victim;
8. If applicable, contact the administrator of the website on which the bullying occurred to report it.

If the misconduct does not meet this policy's definition of bullying, it may be addressed under other district disciplinary policies.

For bullying initiated off campus and received on campus (e.g. cyberbullying), the District only has authority to impose disciplinary measures if the bullying substantially disrupted the educational environment or posed a true threat. In all other cases of off campus bullying received on campus, the District may only take corrective measures as described in items five through eight above.

If the perpetrator is a school staff member, the District shall take appropriate disciplinary action including, but not limited to: a reprimand, modification of duties (only if allowed by applicable policy, the negotiated agreement, and/or the individual's contract), suspension, or a recommendation for termination/discharge in accordance with any applicable law.

Victim Protection Strategies

When the District confirms that a violation of this policy has occurred, it should notify the victim's parents and shall implement victim protection strategies. These strategies shall be developed on a case-by-case basis after administration has reviewed the totality of the circumstances surrounding the bullying incident(s) or other violations of this policy. Strategies may include, but not be limited to, the following:

1. Additional training for all students and applicable staff on implementation of this policy and/or bullying prevention.
2. Notice to the victim's teachers and other staff to monitor the victim and his/her interaction with peers and/or the assignment of a staff member to escort the student between classes.
3. Assignment of district staff to monitor, more frequently, areas in the school where bullying has occurred.
4. Referral to counseling services for the victim and perpetrator.
5. Modification of the perpetrator's schedule and other appropriate measures imposed on the perpetrator (not the victim) to minimize the perpetrator's contact with the victim.

Prevention Programs & Professional Development Activities

In accordance with law, the District shall develop and implement bullying prevention programs for all students and staff professional development activities.

HEALTH

Good health is an important factor in a child's educational development. A healthy child will have better attendance, avoid lost instructional time, and be more receptive and alert in the classroom. A daily schedule that provides regular and adequate rest and diet is perhaps the major contribution that can be made to maintain a child's health.

Proper clothing, especially during the winter season, is also an important factor in maintaining good health.

TRANSPORTATION

Parents with children riding rural buses must sign a written contract prior to the start of bus service. Interested parents are responsible for a **monthly** busing fee. Contact the Central Administration Office at 701-456-0002.

A shuttle In town bus service is **provided available** for some students who reside within the city limits **for a fee**. Students who qualify for this service are:

- Students who live north of Interstate 94.
- Students who live east of 10th Avenue East.
- Students who live west of State Avenue.
- Students who live south of the railroad tracks.

Parents of children who are not eligible for the **shuttle in town** bus service, nor rural transportation services, are responsible for transporting their child (ren) to and from school. An exception may be for certain situations involving special education children when they are placed outside their neighborhood school. Specific services and legal obligations are available through the Director of Student Services office by calling 701-456-0002.

BUS LIMITS/ROUTES/FEEES

Transportation on school district buses or family transportation payments will be offered to all students who live outside incorporated city limits but within Dickinson Public School District boundaries. Details and policies are available by contacting the Administrative Assistant for Transportation at 701-456-0002.

The school bus routes and bus fees are established by the School Board to help cover the cost of the total busing program.

EMERGENCY CLOSING PROCEDURE

If there is any doubt about school being open or closed, parents/guardians are asked to listen to radio stations KDIX 1230 AM, KLTC 1460 AM, KDXN 105.7 FM, and KCAD 99.1 FM and KXDI 94 FM. The district Alert Solutions message (automated telephone message) will be activated should weather conditions warrant the closing of schools or early dismissal. Residents are requested not to telephone the school office or central office when weather is bad. Too many calls tie up vital phone lines, making it difficult to keep everything running smoothly.

In the event of other emergencies not related to weather that might require the schools to close or be evacuated during the school day, all district staff will follow the steps outlined in the district Emergency Procedures Manual to ensure the safety and well-being of all children in the schools.

HOME BOUND/HOSPITAL INSTRUCTION

The Dickinson Public School District will provide one hour per day home bound or hospital instruction if a student is out of school for a week or longer. It is required that a parent, or other adult arranged for by the parent, be present in the home while home bound instruction is being provided. Home bound or hospital instruction will be considered in the following situations:

- * A child has an operation or condition which requires home bound instruction for longer than a week;
- * A student's condition relapses requiring periodic excused absences from school. Arrangements will be made to match home instruction to the needs of the student;
- * If a student is hospitalized in another North Dakota city or out of state, arrangements will be made with the school district where the hospital is located to provide hospital instruction. This instruction will be paid by the Dickinson Public School District.

In order to receive home bound or hospital instruction, a statement from a physician must accompany the request. The statement from the physician must indicate the medical condition that warrants home bound/hospital instruction and the length of time that the student will need to be home bound/hospitalized. If the medical condition is long-term, an updated statement from the physician must be submitted to the building administrator each school quarter in order for the home bound/hospital instruction to continue. This updated statement must indicate the continuation of the medical condition and continued need for home bound/hospital instruction.

A parent should contact the building principal to give needed information regarding the student's condition. The principal will contact the Director of Student Services who will make arrangements for the home bound or hospital instructional program. The final approval of this service will be made by the Director. Please contact the Director of Student Services at the Central Administration Office with any questions (701-456-0002).

Model Notification of Rights under FERPA for Elementary and Secondary Schools (FGAE2)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the school receives a request for access. Parents or eligible students should submit to the school principal, or appropriate school official, a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected in accordance with board regulation FGA-BR.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the school principal, or appropriate school official, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent. **(See complete list on pp. 3-4 of this document).**

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel), or a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; or a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Also, federal law permits a school district to identify certain information as “directory information” which may be released publicly without permission of the parents/guardians. The district identified this information as the following: student’s name, address, telephone listing, photographs, date and place of birth, major field of study, dates of attendance, grade level, electronic personal identifier, institutional electronic mail address, participation in officially recognized activities and sports, weight and height of athletes, degrees, honors and awards received, and the most recent educational institution attended. If you do not want this information released, please contact the school principal within five school days from the date this student handbook is received.

Disclosure of PII without Consent

FERPA permits the disclosure of PII from students’ education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student:

1. To other school officials, as defined in #3 above, within the educational agency or institution whom the school has determined to have legitimate educational interests. This may include contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in §99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(2) are met. (§99.31(a)(1))
2. To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer, subject to the requirements of §99.34. (§99.31(a)(2))
3. To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency in the parent or eligible student’s State (SEA). Disclosures under this

provision may be made, subject to the requirements of §99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf. (§§99.31(a)(3) and 99.35)

4. In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§99.31(a)(4))
5. To state and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a state statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to §99.38. (§99.31(a)(5))
6. To organizations conducting studies for, or on behalf of, the school, in order to: develop, validate, or administer predictive tests; administer student aid programs; or improve instruction. (§99.31(a)(6))
7. To accrediting organizations to carry out their accrediting functions. (§99.31(a)(7))
8. To parents of an eligible student if the student is a dependent for IRS tax purposes. (§99.31(a)(8))
9. To comply with a judicial order or lawfully issued subpoena. (§99.31(a)(9))
10. To appropriate officials in connection with a health or safety emergency, subject to §99.36. (§99.31(a)(10))
11. Information the school has designated as "directory information" under §99.37. (§99.31(a)(11))

In addition, two federal laws require school districts receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories--names, addresses and telephone listings--unless parents have advised the School District that they do not want their student's information disclosed without their prior written consent.

If you do not want Dickinson School District to disclose directory information from your child's education records without your prior written consent, you must notify the school/District in writing **within two weeks of the first day child is enrolled**. ASBESTOS NOTICE

The Asbestos Hazard Emergency Response Act (AHERA) requires that all public school buildings be inspected or reinspected for the presence of asbestos every three years after a management plan is in effect. The same statute also required initial and annual notifications of the availability of a management plan which outlines the steps to be taken to eliminate any hazards.

The Dickinson Public School District has a very limited amount of asbestos containing materials in the school buildings and it is being managed in strict compliance with all pertinent federal regulations. A copy of the inspection report which details the locations of these materials and the proper management procedures is available for public inspection during normal working hours in the Central Administration Office.

4. Any prescription or non-prescription drug, medicine, vitamin or other chemical including, but not limited to aspirin, other pain relievers,

stimulants, diet pills, multiple or other type vitamins, pep pills, "no-doze" pills, cough medicines and syrups, cold medicines, laxatives, stomach or digestive remedies, depressants, sports or muscle-building supplements, and sleeping pills not administered and/or taken with appropriate consent and authorization from parents, school administration, and, if applicable, a health care provider.

The District has a separate policy dealing with tobacco use.

Reporting Violations

A student or staff member that has reason to believe that a student has violated this policy should notify a school official (i.e., a teacher or administrator if the reporter is a student; a school administrator if the reporter is a district staff member). Except in limited circumstances under law.¹ A teacher is required to report known or suspected violations of this policy to the school principal.

Violation

When a principal/Superintendent has reasonable suspicion that a student has violated this policy, s/he may search the student in accordance with the district's policy on searches of students' personal property.

Such searches shall not include referral for mandatory alcohol/drug testing.

Disciplinary sanctions will be imposed on and additional actions may be taken (as listed below) in response to, any violation of this policy. These sanctions may include suspension or expulsion, intervention (as described below), and notification of proper authorities for prosecution. Prohibited substances will be confiscated and illegal substances will be turned over to law enforcement authorities.

Any student who is observed to be under the influence of a prohibited substance will be taken immediately to the principal's office. The student's parents will be notified and asked to pick up the student. If there appears to be imminent danger to other students, school personnel, and/or the student involved, the principal may have the student removed from the school by school, medical, or law enforcement personnel.

Intervention

It is acknowledged that the public school has neither the authority nor the responsibility to make medical or health determinations regarding chemical dependency; however, when observed behavior indicates that a problem exists which may affect the student's ability to learn or the educational climate of the school, the school has a right and a responsibility to refer the student for a formal chemical dependency diagnosis. The Superintendent shall develop a procedure for chemical dependency identification and referral for treatment.

Referral for treatment shall be a constructive not punitive action; however, use

¹When a teacher/principal participates in a juvenile court program and receives confidential information about a student.

of the treatment program shall not override or prohibit the District from taking disciplinary action for violations of this policy.

The school will make a reasonable effort to cooperate with a therapy program if one is recommended for the student. The Board believes that if a student is involved in a chemical dependency program and is successfully addressing his/her harmful involvement with chemicals, s/he may continue in the regular school setting and continue to participate in any extracurricular program unless participation is in conflict with rules and regulations set forth by the Board and the North Dakota High School Activities Association and/or the student has been suspended or expelled as a result of a district policy violation.

The school may, through the use of available resources, provide follow-up counseling and supportive assistance to those students who return after successfully completing a therapeutic regimen, realizing that the student may need assistance in dealing with other environmental factors beyond the school's control which may remain unchanged.

Confidentiality

The District shall maintain the confidentiality of students referred for counseling and chemical dependency treatment in accordance with the district's policy on counseling records.

Education

The District will teach about drugs and alcohol in an age appropriate developmentally based education and prevention program in every grade in accordance with law. This program will include information about drug and alcohol counseling and rehabilitation programs available to the students

In addition, the District will conduct staff orientation and training on drug and alcohol prevention, including a periodic overview of this policy and its procedures for implementation. The District will also provide parent and community education on the topic of drug and alcohol prevention.

Policy Implementation

Student handbooks shall contain a statement of sanctions required concerning the possession, use, or distribution of drugs and/or alcohol.

The Dickinson Public Schools will review this policy and its implementation periodically to ensure that disciplinary sanctions are consistently applied and to determine the effectiveness of the program for the prevention of alcohol and other drug use/abuse.

STUDENT ACCESS TO INTERNET & COMPUTER NETWORK POLICY

One of the major purposes of the Internet is to support research and education in academic institutions in the United States by providing access to unique resources. The use of the Internet in the Dickinson Public School District must be in support of educational goals and consistent with the stated objective of the school district. Use of other networks or computing resources must comply with the rules appropriate for that network. The Dickinson Public School District is bound by the Acceptable User Policy of its current Internet Service Provider.

Transmission of any material in violation of any federal or state law or regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening, harassing, or obscene material, or material protected by trade secrets. Use for commercial activities by for-profit institutions is generally not acceptable. Use for product advertisement is also prohibited. Illegal activities are strictly prohibited.

The use of the Internet for any use other than required curriculum activities is a privilege, not a right. Inappropriate use may result in cancellation of those privileges. This cancellation of privileges may be up to 12 months and includes all available computers in the Dickinson Public School system. Based upon acceptable use guidelines outlined in this document, faculty and administrators will determine what constitutes inappropriate use and their decision is final.

Users are expected to abide by generally accepted rules of network etiquette. These include, but are not limited to the following:

- * Be polite. Do not write or send abusive messages to others. Do not post anonymous messages.
- * Use appropriate language. Do not swear, use vulgarities or any other inappropriate language.
- * Do not reveal the personal home address or phone numbers of students or colleagues.
- * Note that electronic mail (email) is not guaranteed to be private. Messages relating to or in support of illegal activities may be reported to the authorities.

- * Do not use the Internet in such a way that would disrupt the use of the Internet or the network by other users (e.g. downloading large files during prime time, sending chain letters or mass email messages, annoying other users).
- * Do not post personal communications without the original author's consent.

Users who identify a security problem on the network must not communicate the problem to other users and must promptly notify the system administrator. Users must not use another individual's account nor give their password to others. Logging into the network with another's login will result in a cancellation of user privileges. Attempts to login to the network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of inappropriate use of the network or Internet may be denied access.

Vandalism will result in cancellation of privileges. Vandalism is defined as any attempt to harm or destroy data of another user and/or any workstation or network hardware, software or cabling that is part of the network. This includes but is not limited to uploading, downloading, creating computer viruses, damaging computers, computer systems, computer networks, or intentionally wasting resources.

Obscene, abusive or otherwise offensive language may appear on the Internet, as well as sexually explicit, racially biased, or other offensive materials. Dickinson Public Schools, while providing access to the seemingly limitless resources on the Internet, will attempt to protect students from the location of questionable materials. This will be accomplished by educating parents and students about the Internet and by controlling access when appropriate and feasible. It is the responsibility of all students to access only appropriate servers and sites on the Internet. The Dickinson Public School District is in compliance with the Children's Internet Protection Act, which mandates that the Internet be filtered in educational institutions.

To gain access to email and the Internet, all students under the age of 18 must obtain parental permission. Parents desiring their children to have access must sign and return the proper form. A new form will be signed when a student is first registered in the school district and upon entering the junior high and high school levels.

CHILDREN'S INTERNET PROTECTION ACT (CIPA)

Schools applying for e-rate funds must have a technology protection measure in place that blocks or filters Internet access. This filter may be disabled for bona fide research for adults. The policy must include monitoring the on-line activities of minors.

The Internet safety policy must address:

- * access by minors to inappropriate matter
- * safety and security with email, chatting on the internet, etc.
- * unauthorized access
- * unauthorized disclosure
- * measures to restrict minors' access to materials that are harmful to minors

This measure is necessary for e-rate funding and Title III of the ESEA and Library Services and Technology Act funds.

Sendit Technology Services (STS), our Internet service provider, provides filtering to our school district with 8e6 Technologies Hardware (formerly X-Stop). The URL database is updated daily. This filter prevents students from accessing web sites that are not consistent with K-12 curriculum.

The categories blocked are: alcohol, anarchy, chat, criminal skills, cults, drugs, gambling, hate groups, obscene and tasteless sites, personal ads, pornography and public web proxies. The filtering policy can be found on the STS web site: <http://www.sendit.nodak.edu>

Corporal punishment does not include action taken by an employee for self-defense, protection of persons or property, obtaining possession of a weapon or other dangerous object, to quell a verbal disturbance, for the preservation of order, or pain or discomfort caused by athletic competition or recreational activities voluntarily engaged in by a student.
