REQUIRED

Descriptor Code: ACDA

**ACCEPTABLE INTERNET ~~AND PERSONAL TECHNOLOGY USE~~
~~AND WAIVER OF LIABILITY~~**

The Dickinson School District believes Internet access plays an important role in the education of students; however, the Internet also contains content that is not appropriate for students and staff to access. In accordance with federal law, the District has taken reasonable precautions to restrict access to materials obscene, pornographic, and/or harmful to minors through the use of software designed to block sites containing inappropriate material. While the District has taken such preventive measures, it recognizes that it is not possible to fully guarantee that students and/or staff will never access objectionable materials.

Education

The District shall provide education to students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyberbullying awareness and response.

Students bringing personal technology to school including, but not limited to, cell phones, tablets, laptops, and handheld games, must adhere to the Student Use of Personal Technology Policy (FFI), classroom and/or building rules related to personal technology use, and all other applicable student conduct policies.

Monitoring Use

Internet access is a privilege, not a right. Network storage areas shall be subject to the same scrutiny as school lockers for students. Staff shall have no reasonable expectation of privacy when using district computers and/or networks and shall use this technology solely for work-related purposes. Network administrators may view files and communications to maintain the integrity of the system and to ensure proper and responsible use of the system. Teachers and administrators will exercise supervision of student use.

- ~~12. Using personal technology to violate a student conduct policy including, but not limited to, policies on cheating and bullying while on school property or at a school-sponsored event;~~
- ~~13. Using personal technology to photograph or video record any person during the school day. The District may also take disciplinary action if students are transmitting any photo or video using personal technology during the school day. Building principals are authorized to make exceptions to this rule for bona fide classroom activities and in accordance with the "exceptions" section of this policy;~~
