Re: 2010-2011 Foundation Grant Applications

The Dickinson Public Schools Foundation wants to give away \$16,200 to teachers and/or administrators. Foundation grants are available to support unique, challenging, innovative projects and programs which enhance the educational experience. We fund projects that go *“above and beyond”* the school district’s budget.

“It’s from teacher’s special and innovative projects that we learn about things that really engage students..... we need to nurture our most creative teachers’ efforts. Basic public funding doesn’t usually cover that kind of innovation.”

We encourage you to apply for a Foundation grant. The Program Allocation Committee recently met and made some revisions to our evaluation criteria, the grant application and the application instructions. We feel that the changes will improve our application process.

Grant applications are due on December 1 and grants will be awarded in January or February of 2011.

Please feel free to contact any of the Program Allocations committee members if you have any questions.

Good luck!
