Parents and Community Members,

The website links listed below are information about the H1N1flu virus. This was recently added to the Dickinson School District websites in an effort to enhance communication with the community and distribute useful information about the virus. Health professionals across North Dakota and the nation are concerned about the potential impact of the virus and this information may be useful in diminishing the spread of the disease if it occurs in Dickinson. Also, these links will serve as a location for information distribution in the event it is necessary.

The Dickinson School District is taking steps to contribute to containing the spread of the disease if it occurs and working with our parents is one means to assist in accomplishing this objective. Hopefully, we can all reinforce the importance of cough etiquette and regular hand washing to the children as significant factors in disease prevention. I hope you find this material informative and useful and if you have any questions, please do not hesitate to contact me.

Doug Sullivan, Superintendent
Dickinson Public Schools
456-0002
