Disciplinary Consequences & Confiscation

Students in violation of any portion of this policy will be subject to disciplinary procedures in accordance with the district's student conduct policies. In addition, teachers may confiscate personal technology when a student is reasonably suspected of using it to violate this policy or classroom rules. Teachers may keep the personal technology until the end of class or turn it over to the building principal for further action. Teachers shall make this determination based on the severity of the suspected offense. Under no circumstances shall a teacher or ancillary staff member search personal technology.

The building principal shall determine how long to keep confiscated personal technology based on the following criteria:

1. The nature of the offense; if illegal activity is suspected, the administrator shall contact law enforcement and the Superintendent and retain the device until further directed by law enforcement or the Superintendent.
2. If the confiscated item is a phone, the principal should consider if the student walks or drives to and from school and potential safety considerations associated with not having the phone in the student's possession.
3. Other considerations of significance based on the nature of the device confiscated and the student's disciplinary history.

Searches of Personal Technology

The building principal or Superintendent is authorized to search student personal technology only when s/he has credible, specific, and timely reason to believe that the device contains evidence of wrongdoing by a student or potential harm to self or others. Only areas of the device reasonably related to the purpose of the search will be subject to a search (~~e.g., if a student is texting inappropriate photos, only the device's text messages will be searched~~). The building principal and Superintendent are authorized to contact legal counsel to help determine the appropriate scope of the search.

If the building principal or Superintendent suspects or finds that a student's personal technology contains content that violates NDCC 12.1-27.1-03.3 or other laws, s/he shall contact law enforcement. Under no circumstances shall school officials download or transfer sexually explicit content from a student's personal technology. Law enforcement, including school resource officers, must have probable cause to search the device, preferably in the form of a search warrant.

Exceptions

The Superintendent and/or designee is authorized to make exceptions to the prohibitions set forth in this policy for health, safety, or emergency reasons, for students in attendance as active members of a volunteer firefighting organization or volunteer emergency medical service organization, and when use of electronic devices is provided for in a student's Individualized Education Program (IEP).

Emergencies

Students are encouraged to use any available cellular telephone in the event of an emergency that threatens the safety of students, staff, or other individuals.

Prohibitions

~~The Dickinson Public Schools prohibits the use of personal communication devices, including but not limited to: cellular phones, pagers and beepers, by students during the instructional day as defined by each building principal, in district buildings, and when otherwise prohibited by the building principal. Each classroom teacher is authorized to~~

~~create exceptions to this policy for educational use of personal electronic devices. Such teachers must establish rules for educational use of personal electronic devices, and these rules must be approved by the building principal. Such rules shall not violate this policy's prohibition on using electronic devices in areas where there is a reasonable expectation of privacy, and such rules shall be consistent with district rules and policy on student conduct standards. Once the building principal approves the teacher's rules, the teacher is responsible for communicating the rules to students and parents prior to allowing educational use of personal electronic devices.~~

~~The District prohibits the use of camera and text messaging features on cellular phones during the instructional day as defined by each building principal, in district buildings, and when otherwise prohibited by the building principal.~~

~~Other electronic devices, including but not limited to audio devices, image-recording devices, devices that allow for an unfiltered connection to the internet, portable games, and other devices that transmit a signal are prohibited on district property and while students are attending school-sponsored activities and events. This prohibition does not apply to authorized use of district-owned electronic devices.~~

~~Possession and/or use of any image-recording device in an area where there is a reasonable expectation of privacy is strictly prohibited and will result in confiscation of the device.~~

Disciplinary Consequences

~~Students in violation of any portion of this policy will be subject to disciplinary procedures and confiscation of the electronic device. If a student's cell phone or other electronic device is confiscated, the building principal or Superintendent may search the confiscated device in accordance with the district's "Searches of Students" policy. If school official suspects that a student possesses or is disseminating an image that potentially violates NDCC 12.1-27.1-03.3 or finds such an image during a search of an electronic device performed in accordance with policy, s/he shall report this matter to law enforcement for investigation. Disciplinary action up to and including suspension and/or expulsion may also be taken against any student using an electronic device in a manner that violates other district policy or that causes substantial disruption to the educational environment.~~
